

To Whomsoever It May Concern

At Skillmatics, we are committed to creating enriching and educational experiences for children. I, Shikha Davda, VP (Product & Curriculum), am excited to endorse "Mini Yogi," a game innovatively designed by Avantika.

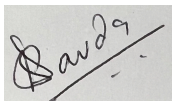

With her keen interest in early childhood education and her experience in content and game development, Avantika has created a product that is not only fun but also immensely beneficial for children, particularly those facing challenges with ADHD.

"Mini Yogi" helps develop focus, memory, and social skills in children, equipping them with coping mechanisms for both in-game activities and real-life situations. This game is especially beneficial for children who struggle with sensory processing, providing them with essential sensory input that aids in improving both their mental and physical well-being. The proposed design of "Mini Yogi" is visually appealing, with vibrant colours and engaging illustrations that capture the attention of young players. The game instructions are simple to understand, allowing children to follow the game rules independently.

"Mini Yogi" is a testament to Avantika's dedication and her significant research in the field. It is an excellent resource for parents and educators looking to introduce children to the benefits of yoga in a manner that is both fun and developmentally appropriate. I highly recommend "Mini Yogi" as a valuable addition to any collection aimed at promoting physical and mental health through playful learning, effectively bridging the gap between fun and functional education.

If you require any further information or have any specific questions, please do not hesitate to contact me.

Yours sincerely,

Shikha Davda
